## GARDENING WITH A MISSION

Growing food and learning about the natural world

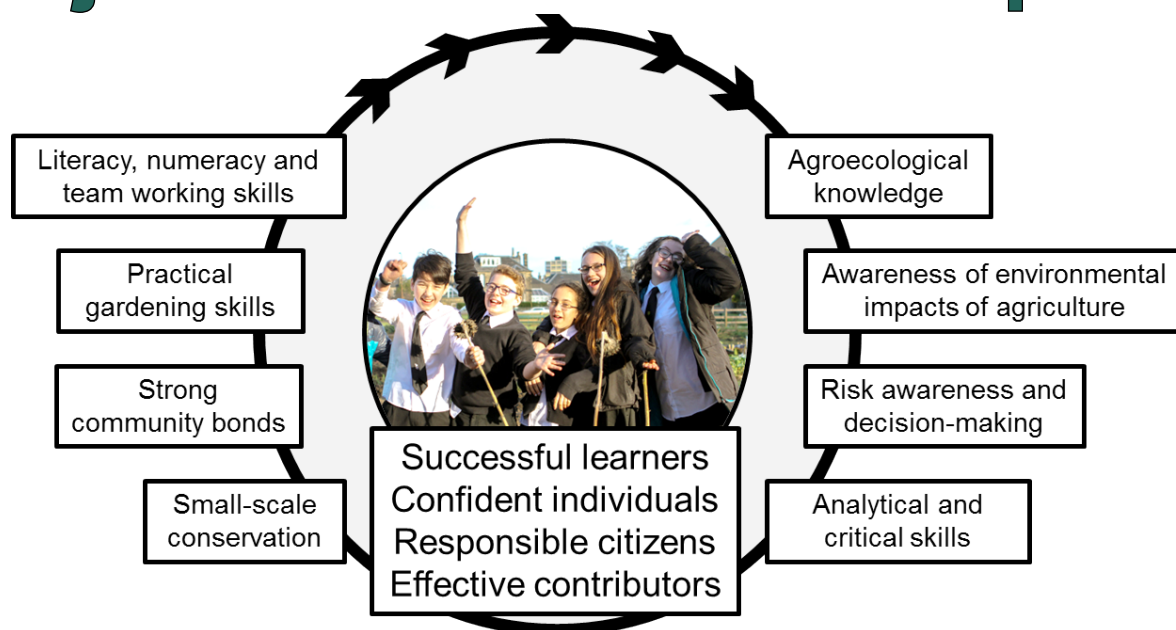

### Project aims

- Teaching pupils how to grow food
- Valuing farming and land resources
- Strengthening community links

### Learning context

- First year secondary school pupils
- Presentations and discussions
- Outdoor gardening workshops

## Project outcomes and impact

### Core topics

- Plant interactions and life cycles
- Environmental impacts of agriculture
- Wildlife-friendly farming

### Future directions

- Attracting more members
- Organising a Harvest Festival
- Expanding the allotment
